EDUCATION

S.R.M. Institute of Science and Technology, Kattankulathur
M.Tech (Integrated), Computer Science and Engineering | 2024 – Present
CGPA: 9.63

Delhi Public School, Bhilai
Class XII (CBSE): 86.8% (2024)
Class X (CBSE): 92.8% (2022)

TECHNICAL SKILLS

Programming: Java, Python, C/C++, JavaScript
Web Development: HTML, CSS, React.js, Django
Database: MySQL
Core Concepts: Data Structures & Algorithms, Object-Oriented Programming
Tools: Git, GitHub

PROJECTS

AI-Based Medical Supply Quality Monitoring System (Prototype)

- Developing a prototype system to automatically analyze and verify the quality of medicines and consumables received in hospitals.
- Extracts key information from documents like Certificates of Analysis and validates compliance with predefined standards.
- Flags inconsistencies such as expiry mismatches, substandard potency, and unapproved suppliers.
- Aims to reduce manual intervention and improve safety through intelligent automation.

FounderOS – AI-Powered Startup Planning Assistant (Prototype)

- Built an AI-based workspace that transforms raw startup ideas into structured, actionable plans.
- Generates key components such as problem statement, solution, target market, business model, and next steps.
- Designed for fast iteration and clarity, enabling users to move from idea to execution efficiently.
- Focused on improving decision-making and reducing time spent on early-stage planning.

CSV Upload & Export Web Application

- Developed a web application to upload, process, and export CSV files efficiently.
- Implemented backend functionality for file handling and data processing.
- Designed responsive frontend components for seamless user interaction.
- Ensured structured data validation and export functionality for real-world usability.

CERTIFICATIONS

- Programming in Java – Score: 95%, Top 5% Achiever (Gold + Elite)
- Fundamentals of Object-Oriented Programming – Silver + Elite
